## Pet Grooming

### Grooming services include:

- ❖ The Humane bath--Your pet is lovingly bathed by well-trained and supervised bathers. The Humane Bath protects eyes, ears, and sensitive body parts. We use a special procedure called The Hydrosurge which cleans and conditions your pet's coat while they get a relaxing water message. Emphasis is made for your pet's safety and comfort.
- ❖ The anal gland is expelled on request only (see extra fees)
- ❖ Your pet's ears are checked, cleaned, and deodorized. (If ears are infected, we will not remove the hair from the ear canal and recommend your pet see a veterinarian)
- ❖ Your pet is observed for any health problems and you will be notified if we have any concerns...
- ❖ We use only the highest quality shampoos. Non-toxic flea shampoo is used as needed.
- ❖ Your pet is fluff-dried and brushed using strict safety standards. (We do not use cage drying)
- ❖ Nail trimming is done as carefully and quickly as possible in order to reduce your pet's stress.

*\*Prices based on an estimated 1 hour of work. Work extending greater than 1 hour will be adjusted appropriately. Please speak with groomer for more information.*

### **Pamper your pet even more by selecting one of our Specialty Shampoos!**
